Our goal is to
"Aim for the Best"
befitting our name and our logo

ABOUT US

We provide Security and IT Services to businesses.

Our vision is to continually raise our standards and become the organization that stands out in the security and IT industry, by not just living up to our customer's expectations but exceeding those through compliance, conformance and performance reviews.

Over the years, we have invested in key technologies, basic engineering capabilities, network architecture, technical standards, and product development in our Research and Development, to create a better and connected experience using the latest technology combined with the capabilities of robotics.

OUR MISSION

To provide highly professional and competitive security services underpinned by the Company's efforts to continually improve Quality, Value for money, Flexibility and Reliability for its valuable clients.

We aim to continually improve the quality of life of all our employees through equal opportunity, continuing education and the provision of a safe working environment.

We aim to achieve an acceptable return on investment, thus enabling growth and maintaining stability while ensuring the satisfaction of our clients.

We pride ourselves in maintaining high standards from our employees to enable us to maintain and upgrade standards of our service for our clients.

OUR PRODUCTS

Novus Guard
Your Portable Lifeguard

NOVUS GUARD PRO

For organizations

Novus Guard is an innovative solution in the emerging category of lone worker protection.

Novus Guard is an all-in-one app for managing, monitoring, and ensuring safety. It offers highly secure, highly reliable, and highly accessible solutions for a variety of industries. With features like

- Lone Worker Protection
- Workforce Management & Tracking
- Fleet Management & Tracking
- Geo-Fencing
- Geo-Tagging

Novus Guard
Your Portable Lifeguard

NOVUS GUARD SOLO

For individuals

It provides not only an affordable solution but also a unique one that goes beyond any other lone protection system to ensure the safety and well-being of individuals who face environmental and/or people challenges.

NOVUS GUARD PRO

Novus Guard is an all-in-one app for managing, monitoring, and ensuring safety. It offers highly secure, highly reliable, and highly accessible solutions for a variety of industries. With features like Lone Worker Protection, Workforce Management & Tracking, Fleet Management & Tracking, Geo-Fencing, and Geo-Tagging you'll have peace of mind knowing that your business is operating in the safest way possible!

NOVUS GUARD SOLO

Your 24/7 Lifeguard

Ideal for lone individuals this feature allows you to be tracked during a session. You can raise alarms (SOS) when you need help. Automated alarms (SOS) are raised when you miss an expected response – such as when you miss to book off at the end of a session. Alarms (SOS) are processed by your alarm recipient(s) and/or Alarm Receiving Centers (ARCs) and help is dispatched as needed.

SECURITY SERVICES

Novus Altair is the provider of manned guarding security services all across the UK. We always make sure that the manpower we supply and the services we provide are the best outcome of your money.

Novus Altair has also achieved Health and Safety Accreditations with Safe Contractor and Construction line.

We follow the British quality standards of BS 7499 for Security Guarding, BS 8507 for Close Protection, BS 7960 for Door Supervision, BS 7984-1:2016 for Key Holding and BS7858 for Screening/Vetting of full-time staff.

The company operate from its Head Office in London where marketing, sales, recruitment and security screening are controlled, and the quality systems are administered.

All personnel are security screened and licensed to SIA regulation for the provision of manned guarding services.

All personnel are highly trained in their duties; staff training regimes conform to the current (and future) requirements of controlling enforcement authorities.

SECURITY SERVICES

We provide security service to suit your security needs within your budget. More information can be found at:

SECURITY GUARDING

We are not just another Manned Guarding Company. We stand at the forefront for the provision of SIA licensed, Uniformed, highly trained, professional, skilled, screened and experienced security guards.

We are committed to recruiting and vetting officers to the standard required for SIA licensing.

We also monitor training needs of our officers and encourage their ongoing development.

Our officers attend client briefings and inductions prior to the commencement of their assignments, ensuring the service delivery in line with our clients' expectations.

We can offer the following services on highly competitive, instant and affordable quotes:

- Short and long-term contracts
- 24/7 manned guarding
- Door supervision
- SIA Licensed security officers
- Bespoke site training
- Rapid Deployment

KEY HOLDING & ALARM RESPONSE

In addition to the **Advanced Mobile Response service**, we provide standard Key holding service designed to provide cost-effective solutions to secure your premises. The services include holding keys to your premises and responding to any alerts or incidents as notified by the police.

If an alarm is activated on your site, we will be notified by the police/EMCS and one of our mobile drivers will attend the site immediately to deal with the Incident, check for intruders, site status and re-set the alarm.

We can also provide **Key Holder Escort service** for your own staff. In the event of alarm activation on your premises one of our security officers can meet your dedicated member of staff at an agreed location.

The security officer will accompany the staff member to check the premises, plan and execute further actions as required and re-set the alarm. The presence of our trained officers means reducing risks for your members of staff from potentially dangerous or worrying situations.

IT SERVICES

We believe in working closely with you and add genuine value to your business. We are able to provide the right methodologies and support systems to reduce costs, mitigate risks and improve day-to-day operations. We are available when you need it the most.

We utilize the latest technologies to build a more scalable, flexible and secure infrastructure – empowering your business for the future.

FUTURE PLAN

NOVUS GUARD – A FUTURE WHATSAPP FOR SAFETY AND SECURITY

- Lone workers
- Health care workers
- Field workers
- Vulnerable women, men and children.

NOVUS GUARD WITH DRONES DISPATCH

We have collaborated with researchers from leading universities to work in AI, robotics and drones.

We aim to dispatch drones during an emergency.

RESEARCH & DEVELOPMENT

Our organisational framework and operational strategy are largely the result of industrial application of spun-out research at doctoral and post-doctoral stages at **King's College London** by the organisational leadership.

CURRENT PROJECT

Robots, Drones and Security

At Novus, we are engaged in research and development in partnership with leading institutions like Tianjin University and Tsinghua University in China and **King's College London** forging the way to innovative and high-tech security solutions.

As part of the collaborations, we will be working on robots and drones in the context of public safety and global security challenges.

To learn more, visit our R&D page:
www.NovusAltair.com

"The next generation of drones and robots will not only complement humans but lead to even greater reliance on trained workforce."

Dr Adnan Niazi
Director at Novus Altair

OUR CLIENTS

OUR ACCREDITATIONS

SECURITY INDUSTRY AUTHORITY

BS EN ISO 9001 QUALITY MANAGEMENT SYSTEM
BS EN ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEM
BS ISO 45001 OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM

QUALITY MANAGEMENT SYSTEM

We take holistic approach to quality with our resources and administrative support functions aimed at the delivery of 24/7 quality centred Security Services. The purpose of the Quality Management System is to ensure that the services provided to our customers consistently meet or exceed their expectations. The company operates a system that regularly evaluates its processes and customer needs and has set quantifiable objectives with plans in place to ensure that they are reviewed on a yearly basis for improvement.

OUR ALARM RECIEVING CENTRE

When you and your staff go home for the night, you want to know that your premises and all your hard work is being looked after.

That's where our **Alarm Recieving Centre (ARC)** comes in. Every one of our security & safety officers, their equipments and the sites and systems they protect are being monitored 24/7 by the dedicated staff in our ARC.

It's not just our ARC that runs 24/7, so do our mobile patrols, who can speed straight to your site the moment there's an alarm. Even a simple keyholding service is made far more powerful thanks to the scale and speed of our security & safety network.

This means that whenever your site is compromised, whether it's the dead of night or a bank holiday, we'll be able to take immediate action, alerting our mobile patrols, your designated contact and emergency services if necessary.

No security & safety officer that we provide is ever on their own, they all have the watchful backup of a powerful security & safety infrastructure that's one of the best in the UK.
